

Summary of The SALT Group's® Refund Review Service:

The SALT Group® specializes in comprehensive Sales & Use Tax Refund Reviews. Our concentration in this area permits our consultants to have a level of knowledge that maximizes Sales & Use Tax recovery and savings for our clients. Our detailed reviews are efficient and non-invasive, requiring little or no effort from the client.

- We typically send a single consultant to review the open statute period of your accounts payable invoices. The consultant will not review your company's general ledger or P & L Statements.
- Aside from a brief conversation with you (or one of your associates) and a quick plant tour, our consultant will not interrupt your operations.
- We do not require any of your resources to perform the review. Our consultant will personally pull all relevant invoices, scan them using The SALT Group's® equipment, and put them back exactly as they were found.
- Once all relevant data has been collected, your review will be completed offsite.
- Confidentiality will be strictly observed at all times.
- After your company's refund has been identified, The SALT Group® will do the work to file for and recover it. All Refunds will be made payable to your company.
- The SALT Group® works on a contingency fee basis. If we fail to identify tax overpayments, there is no fee for our service. There are no hidden fees or ongoing obligations required when working with The SALT Group®. Our Service Agreement is closed-ended and the total fee payable to The SALT Group® is solely based on the refund we secure for your company. All out-of-pocket costs and expenses are paid by The SALT Group®.

The SALT Group® specializes in Sales & Use Tax Refund Reviews because it's easy for manufacturers to overpay these taxes. Vendor error is usually the culprit but whatever the reason may be, Sales & Use Tax overpayments occur on a regular basis. That's why nine out of every ten Reviews performed by The SALT Group® results in a recoverable refund.
